# Man-made Beaches:

The Green Soul of the Concrete Jungle.

"In the face of fast-paced urban growth, cities seek sustainable retreats—enter Crystal Lagoons, a beacon of eco-conscious innovation. These man-made beaches, or lagoons, are filled once and operate in a closed loop, cleverly capturing rainwater to offset evaporation. Using significantly less water compared to golf courses or parks, they provide diverse recreational benefits while conserving precious water resources. Notably, they are adaptable to various water sources and engineered to prevent leaks, serving as reserves in water-scarce regions.

Furthermore, Crystal Lagoons' technology is both eco-friendly and safe. Their disinfection system **reduces chemical usage by 100 times**, and their filtration method is incredibly energy-efficient, **consuming only 2% of the energy required by traditional systems.**

Beyond sustainability, these lagoons transform spaces, creating extensive beachfront destinations ideal for entertainment, leisure, and sports—an oasis within the concrete jungle."

# Crystal Lagoons are Redefining Luxury

Transforming Hotels into Coveted Destinations

"Incorporating a Crystal Lagoons amenity elevates any hotel project, transforming it into the most sought-after destination within its vicinity. These man-made beachfront paradises redefine the standard for vacation developments, setting new benchmarks for hotel and resort excellence. The introduction of these lagoons marks a revolutionary shift in the hospitality sector, recognizing their transformative impact.

Renowned hotel chains globally, including Marriott, Radisson, Conrad, Hyatt Regency, and AVA Resort, have embraced Crystal Lagoons technology, making it a focal point in their projects across the United States, Mexico, Indonesia, Romania, Uruguay, and other countries. The soaring demand for luxury leisure stays is projected to persist, particularly within the thriving Indian market.

These beachfront oases substantially elevate the value of vacation developments, introducing an unparalleled differentiator in the market. The adaptability of these lagoons in any land and water type underscores their environmental safety, ensuring a secure space for various water sports and activities, catering to the diverse desires of guests seeking an exceptional leisure experience."

## Evermore Orlando Resort

20 acres of Beach and 8 acres of water body featuring Hotel Suites & Vacation Homes.

# "Crystal Lagoons are Reshaping Global Hotels"

- Marriott, Hyatt, and Other Hotel Pioneers Embrace this Transformative Amenity."

Crystal Lagoons, known for **transforming real estate and urban entertainment**, is now **revolutionizing the hotel sector**. Leading chains like **Marriott, Hyatt Regency, Radisson, Conrad, and AVA Resort** are incorporating these iconic crystalline lagoons as central features in global projects. From the Hyatt Regency Hill Country Resort in San Antonio to the Evermore Orlando Resort near Disney World, these lagoons redefine vacation destinations with their mesmerizing allure.

In Southeast Asia, Marriott offers a five-star glamping experience at Treasure Bay Bintan Resort, boasting the World's Largest Lagoon. Meanwhile, in Europe, the Radisson Lagoon Hotel Bucharest, part of the Central District Lagoon City project, provides an exclusive beach lifestyle for guests. In Mexico, AVA Resort in Cancun and other projects in Cabo San Lucas showcase the seamless synergy of hotels with crystalline lagoons. According to Crystal Lagoons executives, these extraordinary amenities elevate hotels to the most attractive destinations, bringing about a paradigm shift in vacation development with unparalleled world-class standards.
